OUR BRANDS

ONLY THE BEST FOR YOU

Finding our way back to balance is an important part of our well-being. Often life gets us out of balance in such a way that we need support. The E&M Vital basic concept specifically supports this internal balance, which is so important for well-being, and promotes holistic well-being in harmony with the achievement of a sustainable quality of life.

For about 50 years, Haslauer and its brand „Kurland“ have been synonymous with an extensive range of natural products. From tried-and-tested bogs and valuable oils to perfectly skin-matched cosmetic lines and care products. Kurland acts according to the principle „Mother Earth is not only a perfect guide, she also has a long and valuable list of treasures ready for us“.

Phytomer uses natural concentrates of seawater, algae and mineral-rich sea mud to effectively combat cosmetic problems. The unique basis of all treatments is the patented „Reflexo-thermal Method“. There the organ reflex zones are getting stimulated with self-heating sea sludge stimulates. This exclusive method promotes relaxation and optimizes the effectiveness of marine active ingredients.
